Form Numbers: FAA Form 6000-10; FAA Form 6000-8; FAA Form; 6030-1

Type of Review: Renewal of an information collection

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on August 27, 2018 (83 FR 43724). Title 14 CFR Part 171 establishes procedures and requirements for non-Federal sponsors, ("non-Federal sponsors" refers to entities such as state and local governments, businesses, and private citizens) to purchase, install, operate, and maintain electronic NavAids for use by the flying public, in the National Airspace System (NAS). Part 171 describes procedures for receiving permission to install a facility and requirements to keep it in service. Documenting the initial parameters during commissioning is necessary to have a baseline to reference during future inspections. Another requirement is recording maintenance tasks, removal from service, and any other repairs performed on these facilities in on-site logs to have an accurate history on the performance of the facility. In addition, at each periodic inspection, recording the facilities' current

parameters provides performance information for the life of the facility. Records must be kept on site and the FAA must receive copies of the logs.

Respondents: Approximately 2,600 non-Federal navigation facilities — no more than 2,600 respondents.

Frequency: Information is collected (submitted to Inspectors) on occasion

Estimated Average Burden per Response: 13.72 hours per year.

- Form 6000-10, 1.72 hours per response
- Form 6000-8, 30 minutes per response
- Form 6030-1, 30 minutes per response

Estimated Total Annual Burden: Approximately 36,000 hours per year.
